

REPORT OF THE GRANT COMMITTEE

A prominent Lincoln Community Foundation initiative is that of growing our ability to provide grant support to community nonprofit programs. Since 2005 the LCF has granted \$281,000 for 175 projects that help to build a stronger more resilient community.

Once per year, throughout the month of September, the LCF Board accepts annual grant applications. The Board carefully reviews each application. Grant recipients are announced by the end of the year.

The Board also accepts mini-grant applications throughout the year. The Board meets once per month and reviews any mini-grant applications which have been submitted.

To download an annual grant application packet, please visit our website www.LincolnCommunityFoundation.org in September when a link to the application will be available. The application for mini-grants is available throughout the year by visiting the same link.
